

COVID-19 SCREENING FOR GUESTS COMING TO WINTER CONFERENCE

In the past 14 days, have you experienced any Covid symptoms?

- Yes
 No

*If yes, you must be tested 12-24 hrs prior to joining Winter Conference to ensure you are not contagious. We recommend testing for both flu and Covid.

In the past 14 days, has anyone in your household or other close contacts tested positive for Covid?

- Yes
 No

*If yes, please ensure you have waited at least seven days from the last day of exposure and received a negative test result before arriving at the conference.

Are you currently living with someone who is awaiting Covid test results or waiting in quarantine to be tested?

- Yes
 No

*If yes, we ask you to use your best judgment in coming to the event. If you believe you could also become infected, we would ask you to sit this year out (with a full refund, of course).

Are you currently sick with any other illness (flu, stomach virus, etc)?

- Yes
 No

*If yes, for the sake of our guests, we would ask you to miss this year.

Please consider the following protocols:

- The Department of Health has strongly advised all guests to be tested prior to arrival. If you have any doubt that you may be infected, please take the time to be tested.
 - Maintain physical distance from anyone outside of your group at all times. Mask up when you can't keep your distance!
 - If the moment arises while you're here that you begin developing symptoms, please isolate first and then alert your group leader.
-

I certify that I have read this document and answered NO to all questions above. I will abide by the guidelines on this form and on the crossroadswinterconference.com/covid19 page.
